JUDY ANN FLORY, LITITZ R2, SHOWN WITH HER 4-H GRAND CHAMPION AYRSHIRE FEMALE, "Florydale Preferred Patsy". The Judy-Patsy combination topped the Ayrshire 4-H classes at the Pennsylvania Farm Show on Monday. Reserve champion in the 4-H class was Paul M. Brubaker, Lititz R1. L. F. Photo.

'65 Farm Show; Some Ups And Downs For Countians

The 49th Annual Pennsylvania Farm Show completed its fourth day Thursday having played to 565,000 Pennsylvanians. That is not a record, but it's above the five-year average. The record figure of 690,000 set in 1963 will probably not be broken this year with only Friday's attendance to be added, but the fact remains that over one-half million people traveled some miles to see what was new and exciting on the farm front

The theme of the Farm Show this year is truly meaningful — "Agribusiness, Keystone For The New Pennsylvania" Agri- and its related business, or "Agribusiness," contribute greatly to Pennsylvania's economy — directly and indirectly

As the judging and exhibiting got under way at the Farm Show this week, Lancaster County, the State's leading agricultural county, started off like a house on fire with a sweep of the tobacco exhibits, wins in corn, vegetables, poultry, sheep, Ayrshire dairy cattle and Spotted Poland China hogs. Then things slowed down a bit with ribbons in other dairy, swine, and beef classes coming slowly. One bright spot on Thursday was a strong win in the Shorthorn Baby Beef division. John Welk, 15-year-old son of Mr and Mrs. H Leroy Welk, Strasburg R1, took the 4-H Shorthorn Championship with his steer, 935-pound, Maryland-bred "Corky," and Robert Hosler's heavyweight Shorthorn captured the reserve championship Welk's steer went into the show ring against some very tough Angus and Hereford competition for grand champion Farm Show Steer and lost that honor to the Angus steer shown by Richard Rishel of York County The Rishel tradition of winning in the top category has persisted for several years —different steers, different Rishels

In the Showmanship event, Lancaster County bounced right back into the win column finishing 2nd and 3rd in the Hereford breed with Jay Bixler, Marietta R1, and David Heisey, Sheridan R1, respectively, Robert Hosler, Manheim R4, capturing 1st place among the Shorthorns; and Larry Weaver, New Holland R1, fighting his way to the highly competitive Angus breed showmanship title. In the finale, Weaver again prevailed to become the Farm Show Showman for 1965. Both Weaver and Hosler received awards from their respective breed associations. In the county trio

Freedom & Self-Reliance Built America, Poult. Fed. Told At Annual Banquet

"America has become a great nation because it utilized the best a man had to offer and allowed him to reap his own harvest," Dr. George Seidel of the DuPont Company told an overflow crowd of about 370 poultrymen, wives, and allied industry people at the annual banquet of the Pennsylvania Federation this week in Harrisburg.

Seidel, a research chemist for 25 years, is now manager of the Education Section of the DuPont Public Relations Department in Wilmington, Del. A humorous, enthusiastic speaker, Seidel departed frequently from his prepared text in citing pertinent examples of the value of free individuals and free industry.

"Those who founded America did not do so with the intent of building the greatest civilization known to mankind," Dr. Seidel told his audience

Instead their goal was a society in which men could be free, he said, pointing out that it was this search for freedom that "unleashed material and spiritual blessings unknown to the kingdoms of the past" Entitling his address, "Change, Progress and You," the scientist attributed the nation's growth and progress to four personal qualities that have always been characteristic of Americans— the love of freedom, self-reliance, hard work, and frugality.

He traced these attributes through various aspects of American life and showed how they have been responsible for the nation's material suc-

Farm Women Elect Officers For 1965

The Society of Farm Women of Pennsylvania elected two new officers at its annual business meeting Tuesday morning in the Farm Show Building.

Mrs. Joseph Yanos, Douglasville R2, Berks County, was elected treasurer, succeeding Mrs. Abner Risser, Bainbridge, R1, Lancaster County.

Mrs. E. Robert Nolt, 3650 Meadow Spring Rd., Lancaster, was elected director, succeeding Mrs. Francis Smith, Penn Run, R1, Indiana County.

Other officers for 1965 are: Mrs. Elmo L. Mentzer, W. Louther St, Carlisle, Cumberland County, president; Mrs. Kenneth Staver, Palmyra R1,

L.C. Poultry Assn To Meet Jan. 21st

The Lancaster County Poultry Association has announced that its annual meeting will be held on January 21, 7:45 p.m., at the Poultry Center on West Roseville Road, Lancaster

The program will include reports of the past year's activities which will be presented by the officers and management of the association. Plans will be made for developing policies and services for the coming year, and seven directors will be elected to the Board of Directors.

(Continued on Page 4)

Main Support For Farm & Home Center Must Come From Farm Groups And Related Businesses

Interest in the Farm and Home Foundation Campaign, aimed at raising a minimum of $375,000 for the construction of an agricultural center in Lancaster County, has reached a high point throughout the county, according to campaign officials. This was the concensus of reaction expressed by members of the Campaign Steering Committee, late this week, when a corps of some 500 volunteer canvassers, practically all men, were on record at Campaign Headquarters.

Two "Kick-Off" rallies of volunteer canvassers are scheduled The first will be held in the Lititz Community Center on Monday, January 25, at 7 30 P M; and the second will be held in the Strasburg Fire Hall, Wednesday, January 27. The two separate rallies, identical in character, have been planned to accomodate volunteers in the northern and southern areas of the county, drive officials indicated.

As the campaign approaches its launching date, with the Farm Gifts Division taking the lead, the Steering Committee made it a point, this week, to call attention to the importance of farm families and businesses identified with agriculture contributing as generously as possible, to assure the fulfillment of the Farm and Home Center. As an indication of the manner in which the Foundation Board hopes to raise the needed funds, all contributors will be asked to consider making a "pledge" of support, to be made payable over the next 24 months, rather than merely giving a few dollars in cash at the time the canvass is conducted. The Committee stated, through Noah W Kreider, Chairman, and Willis W. Esbenshade, President of the Board. "The conduct of the Farm and Home Campaign represents one of the biggest ventures farm people have ever under-taken in Lancaster

Weekly Broiler Report

PLACEMENTS INCREASE 10 PERCENT

Placements of broiler chicks in the Commonwealth during the week ending Jan. 9 totaled 756,000. The placements increased 10 percent from the previous week, and 19 percent from one year ago.

Settings for broiler chicks totaled 1,376,000, an increase of 1 percent from the previous week and 16 percent from a year earlier. The current 3-week total of eggs set increased 20 percent from last year.

Inshipments of broiler type chicks during the past 10 weeks totaled 231,000, or 63 percent below the comparable period a year ago. Outshipments of 1,776,000 declined 6 percent from last year.

Placements in the 22 major-producing states totaled 40,046,000 chicks, about the same as the preceding week, but 4 percent above a year earlier. The 10-week total was 1 percent above last year. Settings of 54,816,000 was an increase of 4 percent from the previous week, and 89 percent from a year ago. The 3-week total increased 6 percent from a year ago.

Eastern Pa. & N. J.

Offerings of light type hens fully ample for a dull unaggressive demand. Heavy type hens adequate for a good demand. No turkey trading activity reported. Occasional lots of 5¼-5½# hens sold at 9½c delivered plant. Prices paid at farms for light type hens: 3-6c mostly 5-5½c; heavy type hens 18-19½c mostly 18c.

Fogelsville

(Prices for dock weights, cents per lb. except where noted)

HENS, light type, 5½-8, mostly 5½; Hens, heavy type, 5½-19, mostly 13½-17; PULLETS, 17½-26, mostly 23-26; ROASTERS, 14-30, mostly 20-25; CAPONS, 30½-33; DUCKS, 17-30½, mostly 23½-27; DRAKES, 28-39; GEESE, 18-28½; TURKEYS, Toms, 22-25; TURKEYS, Hens, 31-34½; RABBITS, 36½-50, mostly 40-47; GUINEAS, 37½-57½, mostly 50-57½; PIGEONS (per pr.) 45-1.27½; JUMBO SQUAB, 85; TOTAL COOPS SOLD: 919.

U.S. farmers sold 5,076,000 tons of tomatoes last year.

● Delmarva

The Delmarva broiler and fryer market live prices advanced nearly ¾ cent. Demand continued good for light auction offerings.

Ready-to-cook demand was spotty ranging fair to good in instances. Advance orders for next week are light and competitive.

Delivered prices generally ½ cent higher with prices on low side for prior commitments. Estimated slaughter for Friday and Saturday, 807,000 head compared to 1,036,100 head last weekend.

Prices paid and reported purchases for the 24-hour period ending 10:30 a.m. Friday: broilers and fryers, 17.1-18.3; 1,059,500 head, including 382,100 head purchased of 414,500 head offered at Eastern Poultry Growers Exchange Thursday.

Twenty-two percent of the broilers sold for 17.5-17.9 cents per pound.

The Delmarva Broiler-Feed Ratio for the week ending Jan. 8, 1965 was 3.0, compared with 2.8 last week. Mash prices averaged $102.03, and broilers averaged 14.79 cents per pound.

American newspapers have about 320,000 employees.

From Where We Stand . . .

Improve The Farm Show!

The 49th Annual Pennsylvania Farm Show is now history. How could it have been a better show? That was a question posed by Leland Bull, Pennsylvania Secretary of Agriculture in his brief remarks to the members of the Pennsylvania Poultry Federation last Wednesday night on the occasion of their annual banquet.

We have given some thought to that question and ask that those of you who attended this year's Farm Show do likewise. The only place that we felt improvement was in order was in the ventilation of the large arena. The fans there seemed to be only half-heartedly doing their jobs, and the air seemed unnecessarily laden with animal aromas and dust. Perhaps that is like the city feller's comment when he accompanied his country cousin to the cow barn and expressed surprise that it didn't smell like a rose garden. However, many things that we take for granted do not necessarily have to be. Even the sweet smell of roses can be heightened by good ventilation.

But the Secretary is honestly looking for ways in which he can improve the impression that the Farm Show makes on the many city people that visit there annually. If you have any ideas on this subject please direct them to Secretary Bull, or to us if you prefer; we'll gladly see that they reach the Secretary. The result may well be a better Farm Show, and that will be appreciated by more than half a million of your fellow Pennsylvanians.

cess as well as for the maintenance of personal and political freedom

Taking an example from the business world, he described how freedom of enterprise has stimulated productivity and efficiency and encouraged creativity and ingenuity He drew on his own experiences in research to demonstrate how modern science and technology, spurred on by competition in the marketplace, are producing new materials that are making immense contributions to the economy and standard of living Much of this progress he attributes to competition and to the freedom of the customers to select those products which best satisfy their needs and desires

Businesses no less than individuals, must practice self-reliance, according to Dr. Seidel "Any company that fails to plow back earnings heavily in order to keep its equipment in good repair . . . is unfair to its employees and stockholders," he declared

He explained that technological changes will bring painful local dislocations, but that increased efficiency leads to more and better jobs. "I suppose that many wagon builders, blacksmiths, and stablemen suffered hardships when they lost their jobs to mechanics and filling station operators Today, however, large numbers of people are building new highways and repairing old roads, refining petroleum and selling gasoline and oil, making tires, paint, and plastics to serve the millions of cars we possess and enjoy"

"I conclude," he said, "that technological advances do lead to more and better jobs in the long run"

"Skip" Cassel, Witmoyer Laboratories, was named "Allied Industryman of the Year" for his outstanding contributions to the poultry industry for many years. He presently is responsible for compiling Witmoyer's regular publication of Research Notes, a digest of research from all over the country that is pertinent to the poultry industry

During the traditional dressed turkey raffle the grand champion, a 33-pound tom, was bought by D. E Horn Co, York, for $21 a pound. The reserve champion, a 15-pound hen, was sold to Zeigler Bros Feed Mill, Gardner, Pa for $7 50 per pound

● Farm and Home

(Continued from Page 1)

County The proposal of a Farm and Home Center has been discussed by countless individuals and many organizations connected with agriculture Now is the opportunity for all farming interests to back the plans for this Center with generous gifts and pledges of support We have the potential to make this project a complete success We are counting on our volunteer canvassers to perform a good job of soliciting and we request that they be received enthusiastically If farm people give their full share, we have been told that many individuals, industries, and businesses in the city area will then join in support of the project"

Time of Destiny

Lesson for January 17, 1965

Background Scripture: Matthew 4:12 through 8-34.
Devotional Reading: Matthew 5:1-13.

As Matthew tells the story, Jesus and his older cousin John were not only both preachers; a summary of their preaching is expressed in the same words for both. Repent! for the Kingdom of heaven is near."

Dr. Foreman

Scholars and saints have puzzled over this short sentence. What does "repent" mean? Why the demand for repentance because the Kingdom is near? What is the Kingdom of heaven? Is it heaven, or in heaven, or is it a part of this earth? We cannot answer all these questions in a short space. Consider only one question, about the Kingdom of God. What is it and how does it draw near? We offer a simple definition: The Kingdom of God (or of heaven; the words are used interchangeably in the New Testament) is not a place; it is a state of things in which God's will is the supreme law.

Well, some one will say, isn't God's will supreme everywhere and always? And if it is, how can the Kingdom be more in one place or at one time than another? How can such a Kingdom "draw near?" The answer, of course, is that God's will is always supreme, but only when it is acknowledged and obeyed can we say the Kingdom is fully come. But this will perhaps be clearer if we look at three points which come out in the background chapters.

The kingdom spoken

Now anybody who has any knowledge of God knows that pious good words, even true words, do not make a good man and do not make the Kingdom of God. Not in talk but in act is religion best shown and tested. All the same, Jesus and John and a host of followers, have found it necessary to talk a great deal about the Kingdom. Man is a thinking animal, and we have to think with words. One of the last commands Jesus gave was "Teach . . ." The Christian religion would have evaporated off the earth centuries ago if there had been a conspiracy of silence to kill it. So we have the Sermon on the Mount and all the other teachings of Jesus which have been handed down to us. How we wish there were more!

The kingdom lived

A religion which is without words and a religion which is all words, are equally bad. This is where the command Repent! comes in. It is clear that the people of Galilee thought of the Kingdom mostly as a "good time coming." They thought of what they could get out of it rather than of what they could put into it. They expected God to blot out and forever banish all evil in his glorious Kingdom. What both John and Jesus insisted on was that to enter the Kingdom—or indeed even to see it—people must change their whole way of life. The word Repent in the Greek means to change one's mind; but not in the trivial sense as when we speak of a woman's privilege of changing her mind. The word goes deep; it means to change one's whole way of looking at things. It means making the will of God supreme, really supreme, for you. It means the earnest search, at all turns of life's road, to know what the will of God is in this situation. This kind of "repentance" will not end with a quick "I'm sorry." It works out into God-centered living. In Matthew's story, the first thing Jesus does after preaching the sermon on the mount is not to go to work on a better sermon but to go around helping people. That's the Kingdom lived.

FULTON GRANGE #66

Fulton Grange #66 held its regular meeting January 11 at its hall in Oakryn, Pa., and Gyles H. Brown, Master, presided at the business session.

Robert B. McSparran was guest speaker and spoke on "New Rules About Income Tax and Things We Should Know in Filing Our Income Tax." Rev. Kenneth Hill sang a solo.

The public is invited to the next meeting, January 25, 8 p.m. Mr. Ronald Wharton from the Lancaster County Boy Scout Office, Lancaster, will give a talk regarding organizing Boy Scout troops.

Lancaster County Pomona Grange will meet in the Lancaster County Farm Bureau Building, Lancaster, Saturday, January 16, 8 p m

Now Is The Time . . .

BY MAX SMITH

MAX SMITH

To Care For Heifer Calves

Dairy heifers that are being raised for replacements should get plenty of good care at all times of the year. In some cases this type of livestock are neglected during the winter months. In the first place, we suggest that the horns be stopped or removed from the heifers at an early age; there is little place for horns in modern dairying; secondly, they should be vaccinated for resistance against brucellosis; and finally, check their droppings for stomach worms; the internal parasites are a problem on many farms and need attention.

To Tag Ewes

Good shepherds will remove the wool and manure locks from the rear quarters of their ewes several weeks before lambing time; also trim the long wool from around the udder in order to give the new-born lamb a chance to nurse more safely; this may prevent the lamb from consuming small bits of wool near the udder and teats. Attention of this nature before lambing time will increase net profits.

To Keep Fertilizer Dry

Some farmers have accepted delivery of part of their spring fertilizer needs. It is very important that this fertilizer be stored up off the ground (may draw moisture) and away from any rain or snow water Wet fertilizer may become a fire hazard and will surely be difficult to handle next spring

To De-Louse Cattle

Animal comfort is very important in getting maximum, efficient production and weight gains. If either fattening cattle or dairy cattle are infested with lice, they will spend too much time and energy trying to scratch and become comfortable. In the feedlot automatic

MILK PRODUCERS

Here Is Why It Pays To Use

GREEN PASTURES Nutro-Sweet

1. A Dairy Feed Product developed by our Nutrition Department to aid in maintaining milk production when roughage quality goes down.
2. It ECONOMICALLY replaces the nutrients you are missing when your pasture suffers from the dry weather.
3. VITAMIN A IS ALL IMPORTANT
   So is Vitamin D. NUTRO-SWEET adequately replaces these essential vitamins which will not be found in a dry stemmy pasture or poor quality hay.
4. MINERALS, especially phosphorous normally found in good roughage now supplied by NUTRO-SWEET.
5. In Short NUTRO-SWEET is a very economical source of nutrients.
6. A good top feed for heavier producers or show animals.
7. Cows really enjoy its bulky course texture.
8. Nutro-Sweet is palatable and a good appetite stimulant.
9. Saves hay for winter feeding.
10. Economical to use — saves money — 4 lbs. Nutro-Sweet equal to 6 lbs. of top quality hay or 8-10 lbs. good quality roughage.

For an economical practical Dairy feeding and management program and better returns per feed dollar.

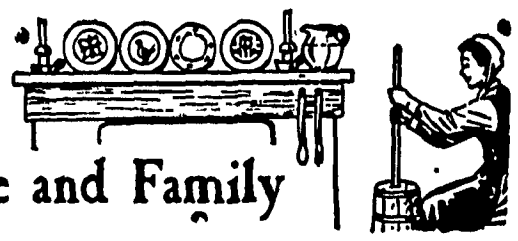
"ANY ONE MAY BUY FROM FARM BUREAU"



For the Farm Wife and Family

By Mrs. Richard C. Spence

Under-A-Dollar Dinner

SPENCE

Chill winter winds are apt to whet the appetite, but they need not blow away the food budget. Plan to highlight a menu with one of these easy and economical entrees and serve a nourishing and delicious dinner for less than one dollar per person. Macaroni dishes are ideal to serve with this idea in mind. First of all, they are so flavorful Then, because the macaroni product itself is so inexpensive it can extend more costly sauces and fillings to make dishes you can serve a crowd without sacrificing your food budget And last but not least, macaroni product dishes can be prepared ahead of time, needing only a brief last-minute reheating or garnishing before serving.

SOLE-MACARONI CASSEROLE SUPERB

2 packages (1 lb. each) frozen fillets of sole, thawed and drained
8 ounces elbow macaroni
2 cans (10-ounces each) frozen shrimp soup, thawed
1½ cups milk
½ cup chopped green onions or chives
½ cup chopped, pitted black olives
½ teaspoon salt
½ teaspoon pepper
3 tablespoons lemon juice
3 tablespoons butter or margarine, melted
¼ teaspoon dried tarragon leaves, crushed
¼ teaspoon dried dill weed
3 pitted whole black olives

Set out 2½ quart casserole. Preheat oven to 350 degrees. Set aside 8 fillets Cut remaining sole into small pieces. In boiling, salted water cook macaroni until tender, yet firm, 5 to 7 minutes; drain. In saucepan blend together soup, milk, pieces of sole, green onions or chives, salt and pepper; heat just to boiling. Combine macaroni and soup mixture, mixing thoroughly. Turn into casserole. In small mixing bowl blend together lemon juice, butter or margarine, tarragon and dill.

Brush remaining fillets with lemon mixture, roll up jelly roll-fashion; place pinwheel-side up in casserole, pressing down gently Cut whole olives in half lengthwise; cut each half into slices and use to garnish casserole Bake 50 minutes, or until it flakes easily when tested with fork.

SAVORY ALASKA

2 12-ounce cans luncheon meat
2½ pounds potatoes, peeled, cooked and drained
1 to 2 tablespoons hot milk
2 egg yolks
Salt
Ground white pepper
1 7-ounce jar pimiento, well drained and coarsely chopped
1 tablespoon butter or margarine, melted

Place luncheon meat end to end on a baking sheet or wooden board. Loosely cover with alumnium foil. Heat in a moderate oven (375 degrees) 20 minutes. Meanwhile, mash potatoes with milk. Beat in egg yolks. Add salt and pepper to taste. Gently stir in pimiento. Surround meat with potatoes. Brush with butter or margarine. Reheat in a hot oven (425 degrees) for 5 to 10 minutes. Remove to serving plate with two pancake turners. Makes 8 servings.

* * *

STUFFED BEEF ROLL-UPS WITH ONION GRAVY

1½ pounds thinly sliced round steak, pounded
¾ pound ground pork
⅓ cup finely chopped onion
⅓ cup finely chopped celery
1 cup saltine cracker crumbs
½ teaspoon marjoram leaves
½ teaspoon basil leaves
⅛ teaspoon ground black pepper
1 egg, slightly beaten
⅓ cup all-purpose flour
1 teaspoon paprika
2 tablespoons salad oil
1 envelope (1⅜ ounces) onion soup mix
2 cups boiling water
2 tablespoons cold water

Cut meat into 8 pieces about 8 inches long and 5 inches wide. Crumble pork into a skillet; cook 10 minutes. Add onion and celery; cook about 15 minutes or until vegetables are soft. Combine cracker crumbs, marjoram, basil and pepper. Stir in pork, onion, celery and egg. Combine thoroughly. Divide stuffing between pieces of meat. Spread evenly and roll from narrowest end of meat. Secure with toothpicks. Coat with flour which has been seasoned with paprika. Reserve remaining flour mixture. Heat salad oil in large skillet. Brown rolls well. Stir onion soup mix into boiling water. Pour over rolls. Cover and simmer 1½ hours or until meat is tender. Remove rolls to a hot plate. Remove toothpicks. Blend 1 tablespoon reserved flour mixture with cold water. Stir into onion liquid Simmer until thickened. Pour over rolls. Makes 4 servings

* * *

CREAMED ONIONS WITH DRIED BEEF

¼ pound package sliced dried beef
2 pounds small onions (about 18)
2 tablespoons butter or margarine
2 tablespoons flour
½ teaspoon salt
2 cups milk
1 cup bread crumbs
2 tablespoons butter or margarine

Peel onions and place in boiling salted water until tender, about 10 minutes. Drain. Place in 1½ quart baking dish. Melt 2 tablespoons butter in saucepan. Stir in flour and salt. Add milk gradually and stir until sauce thickens. Cut dried beef into pieces. Cover with boiling water. Drain immediately. Add

GALLIMYCIN®
(ERYTHROMYCIN, AMDAL)
(FEED GRADE)

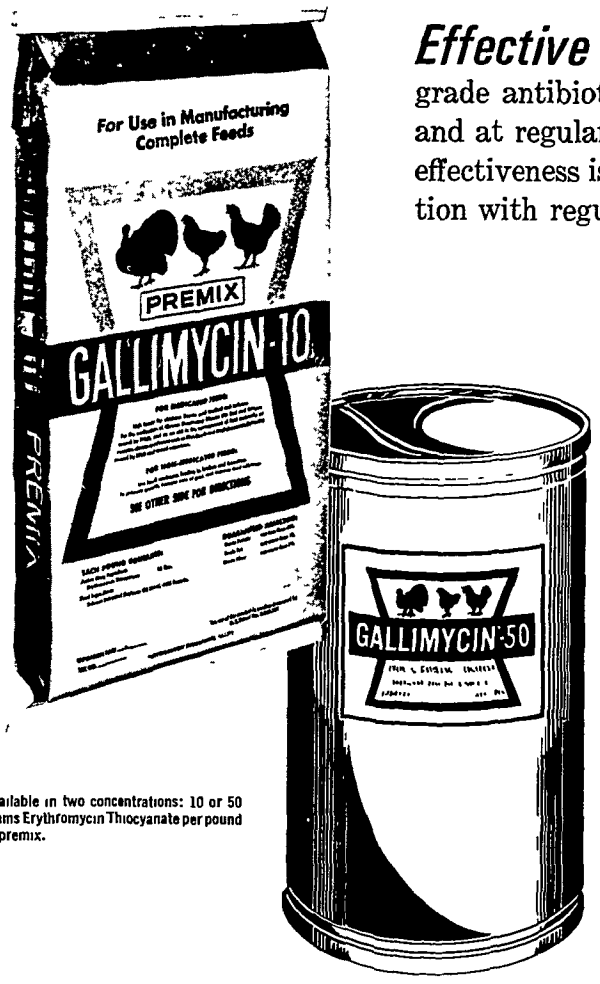
AMDAL COMPANY

SWITCH NOW...TO

GALLIMYCIN®

(ERYTHROMYCIN, AMDAL)

FEED GRADE*



*Available in two concentrations: 10 or 50 grams Erythromycin Thiocyanate per pound of premix.

Effective without potentiation! GALLIMYCIN is today's only feed grade antibiotic that effectively fights PPLO *plus* common poultry diseases—and at regular calcium levels! GALLIMYCIN doesn't have to be potentiated. Its effectiveness isn't tied up by calcium. GALLIMYCIN is 100% available for absorption with regular calcium levels left in the ration. Switch now to GALLIMYCIN:

1 **No need to change feed formulas** when you use GALLIMYCIN. Saves reformulation costs . . . reduces the chance of human error in making special feeds. Eliminates the problem of interference by calcium in the water and worry about oyster shell removal.

2 **No lingering low calcium problems.** As little as 2 days on the low calcium rations required by other antibiotics can drastically cut egg production, reduce shell quality and damage bones of producing hens.

3 **Major spectrum protection.** GALLIMYCIN attacks the most-common disease or stress causing organisms. Doesn't leave the back door open for diseases, other than those you're fighting, to enter and cause trouble. Combats all these major diseases or stresses at the same time:

Vaccination Stresses • Synovitis • Blue Comb
C-R-D • Infectious Coryza • Moving Stresses

plus secondary infections, including those caused by staph, strep and certain strains of E. coli organisms. *(See Spectrum Chart)*

4 **Effective results . . . all through life!** No need to use one antibiotic in your starter program, another for growth and still another for treatment of diseases. Results in the field *prove* that GALLIMYCIN works time after time.

GALLIMYCIN'S Broad Spectrum Hits Both Gram Positive and Gram Negative Bacteria That Cause Major Poultry Diseases.

GRAM POSITIVE BACTERIA

Organism	Disease caused by Organism
Streptococci	Avian Streptococcosis
Staphylococcus Aureus	Avian Staphylococcosis Synovitis

In addition, **in vitro** studies have shown Erythromycin, the antibiotic in GALLIMYCIN, effective against . . .

Erysipelothrix Insidiosa	causes Erysipelas
Clostridia Botulinum	causes Botulism
Listeria Monocytogenes	causes Avian Listerelosis

GRAM NEGATIVE BACTERIA

PPLO	Respiratory Complex
Hemophilus Gallinarium	Coryza
Pasteurella	Coryza

In addition, **in vitro** studies have shown Erythromycin, the antibiotic in GALLIMYCIN, effective against . . .

Pasteurella Multocida	causes Fowl Cholera
E. Coli (some strains)	causes Enteritis Complex
Vibrionic Hepatitis	causes Hepatitis
Coloform Bacilli	causes Colibacillosis

GALLIMYCIN BOOSTS GROWTH...

of broilers and replacement pullets . . . improves feed efficiency! (See reverse side for details.)

For Broilers and Replacement Pullets:

GALLIMYCIN

Boosts Growth; Cuts Feed Costs!

GALLIMYCIN is the proven antibiotic "to grow on." At low levels it stimulates growth 8 to 12 percent. Improves feed efficiency, too—4 to 8 percent in 15 feeding trials. Only GALLIMYCIN returns $6.50 to $12.50 for every dollar invested. As the "new" antibiotic in broiler rations, GALLIMYCIN consistently out-performs older, regularly used antibiotics.

And now, you can get these GALLIMYCIN *benefits plus prevention and control of coccidiosis at the same time!* Make sure your broiler or replacement flock rations contain the correct combination of GALLIMYCIN (Feed Grade) and zoalene coccidiostat. A profit-building team you've been waiting and asking for.

HERE'S HOW TO USE GALLIMYCIN (FEED GRADE)

To combat disease . . .

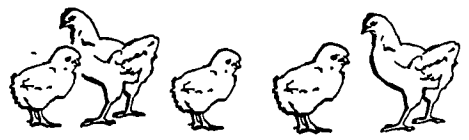
Disease Problem	Dosage	How long to feed
C-R-D (Air Sac) Infectious Coryza Blue Comb Synovitis (caused by PPLO and coccal organisms)	20 lbs. GALLIMYCIN-10 or 4 lbs. GALLIMYCIN-50 per ton of feed NO POTENTIATION NECESSARY	Feed as the only source of feed for 5 days In difficult cases continue medication 2 or 3 days more

To combat stress . . .

Stress Problem	Dosage	How long to feed
As an aid in the management of respiratory outbreaks resulting from . . . Vaccination stresses Debeaking Movement of birds Weather extremes	10 lbs. GALLIMYCIN-10 or 2 lbs. GALLIMYCIN-50 per ton of feed NO POTENTIATION NECESSARY	Feed for 5 days . . . if possible, 2 days before exposure to stress and 3 days afterward

To improve over-all efficiency of growing chickens . . .

Benefit	Dosage	How long to feed
To improve growth To increase rate of gain To improve feed efficiency	½ to 2 lbs. GALLIMYCIN-10 or 0.1 to 0.4 lb. GALLIMYCIN-50 per ton of complete feed	Continuously . . . from 1 day to market



Switch now to GALLIMYCIN, for benefits worth changing to get

1 **Promotes growth**—Controlled studies at the AMDAL Research Center, plus reports from agricultural colleges, experiment stations and poultrymen, prove that GALLIMYCIN at the 5 gram per ton level delivers full-life growth stimulation . . . from day-old to market.

2 **Improves feed efficiency**—GALLIMYCIN gives extra value in every ration to which it is added. Only 5 grams can add over $10.00 to the feeding value of a ton of feed. Cuts feed costs by improving feed efficiency.

3 **Consistent results**—Clinical and experimental results show that GALLIMYCIN promotes significantly better response than "older" growth stimulants. A "new" antibiotic for use in your antibiotic rotation program.

4 **No withdrawal period**—GALLIMYCIN in chick starter, grower and finishing feeds requires no withdrawal period. Feed it right up to market time!

5 **No special registration requirements**—Feeds containing GALLIMYCIN alone for growth stimulation or disease treatment as recommended require only the usual state registration procedures. No new drug application or antibiotic Form 10 is required.

Storing Tips To Keep Clothes Looking Their Best

Belts are easier to find if you keep them in one area. A large hook on the wall or door of the closet will keep them ready for use Or you could use a wooden coat hanger with small hooked screws placed at intervals, or buy a special belt hanger ring

Brush garments before you put them away Check each garment for loose buttons, ripped seams or hems, other needed repairs, or spot cleaning Do this before you hang garments in closet Or, as a reminder, write the repairs needed on slips of paper and pin to the garments.

Try hanging coats and suit jackets on sturdy wooden or padded hangers and see how much longer they keep their shape. Use garment bags or shoulder covers to keep clothing not worn regularly free from dust and lint.

Fold sweaters and knitted garments neatly and put in plastic bags to avoid stretching them out of shape.

Shoe bags or shoe racks on the door or closet wall help keep shoes within easy reach. Brush or polish shoes lightly after each wearing and before putting them in the closet. As you brush or polish, you can see if shoes need repair.

Store handbags not used regularly, gloves, and scarves in plastic bags on a convenient shelf in the closet Leather articles should not be tightly wrapped in plastic — they need air to help keep their supple quality.

Hat boxes or racks keep hats in their original shape and in good appearance If using racks, you might want to put a plastic bag over each hat.

Don't Get a Shock

Be sure your hands and the floor where you're standing are dry before you touch an electric socket or electric appliance or equipment

Never use an electric cord that is worn through to the wire . replace it promptly to avoid an accident

Use Your Movable Time or range timer to remind you to do various jobs, such as take the roast out of the freezer to thaw, to make a phone call at a specific time, and for short-time cooking on top of the range.

FARM WOMEN #6 MEETS

Farm Women Society #6 met at the home of Mrs Milton Eberly, Elizabethtown R3, on January 9

The speaker was Mr Phares Risser of First National Bank who told the group of the progress being made on the Lancaster County Farm and Home Foundation. Risser is a director on the Farm and Home Board

Miss Edna Hammans, a former director of Homemakers of Lancaster County, showed a film titled, "Home Again"

Mrs. Richard McMullen and Mrs. Anna Brandt were named as delegates to the Farm Women's Convention at the Farm Show.

The next meeting was set for Feb 6 at the home of Mrs. Eva Parrett, 352 Park Street, Elizabethtown.

Installs anywhere

See any electric appliance dealer or plumber participating in the plan or call at your nearest PP&L office. You'll get a 50-gallon, glass-lined, quick-recovery electric water heater so that you can have all the hot water you need, when you need it . . . electrically. Provides well over 400 gallons of 150-degree water every 24 hours.

If the installation requires a change from a 2- to 3-wire, 100-ampere service, PP&L will pay up to $100 for the conversion, provided you install either an electric range or a 240-volt electric clothes dryer at the same time.

The $1.75 monthly rental will be added to your regular customer service bills.

LET US PROVE THE EXTRA VALUE... OF A JOHN DEERE "30" SERIES TRACTOR

Here in the lines of these new John Deere "30" Series Tractors is your tip-off to what awaits you the moment you step aboard. Here is a smoothness in trim, functional styling . . . smooth riding comfort . . . smooth shifting, driving and operating ease . . . smooth, quiet power . . . and smooth, accurate control of equipment in the roughest, toughest field conditions. Here again are those tractor qualities you, the farmer, rate highest of all—typical John Deere power and economy—the known ability of John Deere Tractors to handle more work at lower costs for fuel, servicing and maintenance . . . and to do it year after year.

We're sold on these tractors . . . and we know you will be, too, once you've operated one in your own fields. Stop by . . . select the tractor which best fits your farming requirements . . . we'll be glad to bring it out to your farm for a FREE field demonstration.

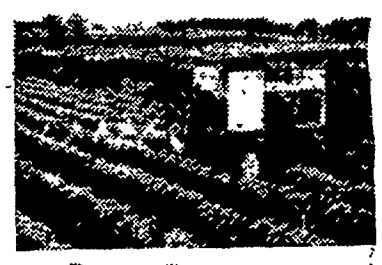
SPRAY for profit ...when you want ...the way you want with ALLIS-CHALMERS

Trailer sprayer has adjustable tread, 60 or 80 inches. Available with 200-gal. Fiberglas tank or three plastic-lined drums (shown). Ruggedly built for modern tractor speeds.



Row-crop spraying is made easy at very moderate cost with Allis-Chalmers tractor-mounted units. Pressure gauge lets you set exactly the uniform application per acre.

Pre-emerge spray when you plant — band-type or complete coverage — with low-cost attachments. Nylon nozzles on Allis-Chalmers sprayers resist corrosive chemicals and fertilizers.

Finance for profit. Ask us about Allis-Chalmers time payment plans.

mately half the expenses of each person making the return exchange trip to Colorado this Spring. Any remaining money will be used to set up a 4-H Exchange Trip Fund, which should be of great help to the younger 4-H'ers.

Four varieties of cookies will be sold under a 4-H Club label for 50 cents a package. These will be marshmallow bars, peanut butter patties, chocolate grahams, and a creme assortment. Any persons interested in buying cookies, or in helping with the actual selling, should contact one of the following persons in their area: Janice Imhoff or Jerry Snader, Ephrata; Glenn Musser, Mount Joy; Linda Neideigh, Elizabethtown; Elaine Overly or Gloria Hershey, New Holland; Janice Knight or Annette Long, Lititz; Linda Peifer, Manheim; Susan Atkins, Quarryville; Carol Hess or James Houser, Lampeter-Strasburg area.

PENN SQUARE DECLARES DISTRIBUTION

According to Ronald L. Sweitzer, Secretary of Penn Square Mutual Fund, the Board of Directors recently declared a distribution of 30 cents per share, payable January 22. Of the 30-cent distribution, 14 cents is from net investment income and 16 cents is from realized capital gains.

Distributions paid in 1964 totaled $1.79 per share from realized capital gains and 38 cents from net investment income.

She'll be a banker when she grows up

Most calves simply grow up to be cows Some grow up to be a sure source of steady, extra income as well It all depends upon how you feed them. The Pioneer Feeding Program can make the profitable difference. The capacity to handle maximum feed and produce more milk is determined early in your cows' lives, during the calf and heifer stage. Thus, a fruitful feeding program must be designed to meet all the nutritional requirements of growing cattle and to insure efficient production when they join the milking herd.

Dairymen who employ the Pioneer Feeding Program find that it is not only reasonable in cost, but sets the stage for realizing the full production potential of the cow. Tomorrow's milking herd is in your calf barn right now, and today is the best time to establish a feeding program that will mean more milk per cow per year. We would like to help you set one up, as we have helped many of your friends and neighbors in this community Call us or stop in. Your calves, too, can be bankers when they grow up.

P. B. GUERNSEY SALE
Thursday, January 21, 1965, 12:30 Noon
At the Ass'n. Sales Pavilion, Lancaster, Pa.
60 Head — 2 Bulls of Breeding Age, Balance Bred Heifers and Cows
40 either fresh or due within 30 days of sale date

Zeitler Bros., Newark, Del., consign 8 head. They sold in two previous sales and attracted much attention. Buyers were pleased with them and we predict the same for this group.

Also in sale entire milking herd from Paul Wikerd, Sinking Springs, Pa., Curtiss Candy breeding, late fall and winter fresheners.

John Blyholder picked 12 head from W. Ward Kittle, Troy, Pa. The kind that are just right to appeal to the buyers.

Many other good consignments from breeders who have built a good reputation with their offerings.

Plan to be there early regardless of the weather. We HAVE to sell them even if we don't have many buyers present.

SALE MANAGED BY:
PENNA. GUERNSEY BREEDERS' ASS'N.

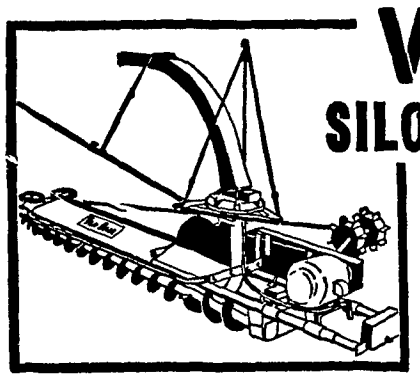
Complete automatic feeding for DAIRY COWS and CATTLE!

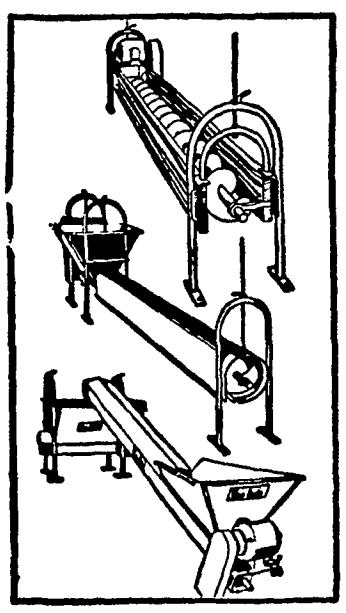
VanDale SILO UNLOADERS



Double augers deliver more silage per minute even when silage is deeply frozen . . . and at a lower operating cost. Patented V-paddle impellers *throw* . . . not blow . . . silage down chute. Adjustable drive hubs give positive traction in all types of silage.

Three-point suspension keeps unloader level at all times.

Plus a complete line of bunk feeders to meet your exact needs



Straight-out Auger Feeder

With VanDale units you can custom build the bunk feeding set-up to fit your needs. Drive section includes hopper, drive assembly and 10', high capacity 9" auger. Additional auger sections are in 10' units and are easily coupled.

Feed-R-Flo Bunk Feeder

The new, all-metal complete feeder. High capacity 9" auger rotates within tube. Gives all-weather protection, even feed distribution, and lower operating cost.

Conveyor Trough

An important link in automatic feeding. Positioned below silo chute, the VanDale conveyor trough carries the silage to the bunk feeder. Primary section includes hopper, drive assembly, and 10', 9" auger. Additional 10' auger sections may be added.

See us for modern automatic feeding equipment

ANOTHER ADDITION IN WAYNE FEEDS FACILITIES AND SERVICES

This new facility will enable Allied Mills to provide our customers an economical means of supply with both bulk and bagged feeds. The most up-to-date truck loading methods will be used. The all-weather loading dock at the warehouse and 50-foot truck scale right under the bulk bins, are equipped to load the exact amount of any of the bulk feeds that are carried in stock.

As agriculture continues to move ahead, Allied Mills will try at all times to provide the Research, Facilities, and Services necessary to give our customers "Tomorrow's Feeds Today".
